A HOT WATER BOTTLE STORY.

A man bought a hot water bottle at a "nine cent" store for 50c. We wanted to charge him a dollar for a good one, and he said, "I have saved 50c." But the first time he used the bottle it leaked and the second time it came apart, and then he said, "Oh, that had my money back," but he could not get it.

MORAL:

A dollar well spent is better than fifty cents badly saved. Our hot water bottles are made by a reliable firm, and are worth the price we ask because they last and won't leak. Every bottle guaranteed perfect. Prices \$1.00, \$1.25 and \$1.50, depending on size. Don't be like the man in the story.

BOOMS CRILL FOR GOVERNOR

PALATKA NEWS SUGGESTS POSSIBLE CANDIDATE FOR GOVERNORIAL NOMINATION.

The last issue of the Palatka News contained the following gubernatorial boost for Hon. E. S. Crill, of that place:

You can't help it and probably don't want to. But the live men of the state whose business takes them into hotel lobbies and other places where men congregate will and do spend their idle moments in discussing available candidates for the governorship and other political matters. These men are the kind who make sentiment. They, too, usually come nearest to voicing current opinion.

At the Saratoga hotel the other evening were a dozen commercial men. The subject came up. Then John McRae, the big, vigorous and always interesting representative of the Covington Company spoke: "I am for George W. Wilson of the Times-Union. I have known him for years. Most of the people know him. He is a good, clean, capable man and would give the state a good administration without any trills. Don't know whether he could be nominated or not, but—well, primaries are peculiar."

There were one or two assents to the proposition, then another man—a Jacksonville man whose name we did not learn—spoke up: "The best man I know for the office of Governor of Florida lives right here in Palatka. I mean Dr. E. S. Crill. There is the man to give us an intelligent business administration with no nonsense and no graft attachment. He is the best posted man regarding state finances in Florida. He knows the state from A to Z. He is absolute honest. Good many cheap guys jumped on him last spring when he introduced that Key West extension bill in the senate. Said he was a railroad man. He was, but not in the sense they meant. Now those guys sing a different song. They see that this Key West railway extension is going to prove the biggest thing that ever happened to Florida. It's going to shove all Cuban travel and freight through Florida, and it's going to make of the Island City the one important, because nearest and most direct point of embarkation for the Panama canal. That was Senator Crill's work, and not only that but he has saved the state of Florida a heap by interposing his head full of conservative brains to prevent ill-considered legislation. I am for Crill and I believe he could be nominated."

Several of those present also spoke in approval of Dr. Crill. Then Mr. McRae said: "Dr. Crill is undoubtedly by one of the purest men in politics in this or any other state. I don't know as he would run but I will say that if he was governor of Florida there would be an end to graft and the affairs of state would be conducted in a dignified manner—something that has not always been during these latter years."

Traveling men not only sell goods, but they build political sentiment, and their utterances are generally of the most sensible sort.

JOINT COMMITTEE MEETING TO-DAY

The members of the joint committee of citizens and members of the Chamber of Commerce, having in charge the direction of the work of the Executive Relief Committee, are requested to meet at the office of the Pensacola Investment Co. at 12 o'clock noon, today. In view of the practical eradication of yellow fever from the city it is desired to take proper action relative to receiving the final report of the Executive Committee, and bringing the relief work to a close.

JNO. E. STILLMAN,
Pres. Chamber of Commerce.

SHARKS CRIPPLE FISH INDUSTRY

MONSTERS MORE NUMEROUS AND FEROCIOUS ON EAST COAST THAN EVER BEFORE.

Unless something is done to do away with the sharks, the mackerel and king fishing on the lower coast will be so crippled this season that profits will be badly crippled and in some instances failures recorded, says the Miami Metropolis.

These beasts of the water have always given the fishermen more or less trouble but they are said to be more plentiful and more vicious this season than ever before. Connecting this with the fact that there are more houses engaged in the fishing business now than ever before the outlook is not very encouraging.

As an instance of the damage that can be done by sharks it is recalled that Monday one of the crews of the Florida Fish and Produce Company had rounded up a school of mackerel aggregating 25,000 pounds, and had the net tucked ready for scooping them aboard the ice boat, when suddenly several large sharks appeared and hurled themselves against the net, tearing large holes and letting the mackerel escape. The result being that not over 1,000 of the 25,000 pounds were landed, several hundred dollars' worth of the fish escaping through the holes.

Other catches have suffered like destruction this season and the fishermen are at a loss to know just how to cope with the situation.

Some have suggested that it would be advisable for the government to pay a premium for the capture and destruction of sharks while others believe that a fertilizer factory using these fish entirely for the making of fertilizer would be a paying venture and aid materially in their destruction or reduction. It is known that shark or any other fish make a first-class fertilizer, and it may be that such an enterprise will be started both for revenue in that line and in order to partially relieve the fishing grounds from the presence of the vicious and daring monsters.

TO BEAUTIFY YOUR COMPLEXION

In 10 Days, Use
...NADINOLA...
THE UNEQUALLED BEAUTIFIER.

THE NADINOLA GIRL
(Formerly Advertised and Sold as ...SATINOLA...)

No change in Formula or Package. The NAME only has been changed to avoid confusion, and we cannot afford to have so valuable preparation confused with any other.)

Prepared only by
NATIONAL TOILET CO., Paris, Tenn.

The Journal's Daily Fashion Feature

AN EMPIRE COAT FOR THE SMALL GIRL.

The Empire modes are fully as adaptable for the younger generations as they are for their fashionable elders. A smart coat for the little school-girl is illustrated in a bright scarlet cloth, with narrow pipings of black velvet. There is the usual yoke or body piece, this strapped after an irregular outline that is extremely fetching. Machine stitching,

pipings and buttons contribute to the charm of this. The coat skirts that are attached to the yoke beneath this strapping are of circular cut, deeply pleated on the sides, front and back so that they fall in full folds. The fastening is diagonal across the front, making for quite a smart effect. The sleeve is a plain tailored design, with strappings to form a cuff effect at the wrist.

SUNDAY DINNER AT SOUTHERN HOTEL.

Following is a list of the tempting viands to be served at Sunday dinner at the Southern Hotel:

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.
